

PROFILE

A pragmatic 3rd-year Software Engineering student passionate about taking charge of complex technological challenges. I am an honest, determined, hard-working and dedicated individual that is always willing to learn. I enjoy new challenges and have a passion for technology and all that it includes. I am a good team player and always ready to take charge when needed. My values of integrity and honesty are visible in my everyday life. Hoping to one day become an asset to the industry.

Based in:
Pretoria - Gauteng

HOBBIES

Programming/Coding

Reading up about the latest technological advancements

Collecting old vintage items and learning what I can about them

ALBERT DU PLOOY

Currently a 3rd Year Student at Belgium Campus iTversity

EDUCATION

Hoërskool Montana

January 2019 - 2023
Passed Matric

Subjects:

Afrikaans Huistaal
English First Additional Language
Mathematics
Engineering Graphics and Design
Geography
Information Technology
Life Orientation

Belgium Campus iTversity

2024 – Present
3rd Year Student studying Bachelor of Computing, specializing in Software Engineering.

WORK EXPERIENCE

Asset Tagging Assistant

Briskflow (Pty) Ltd | Ad-hoc basis since 2023

- **Asset Verification & Tagging:** Executed physical asset tagging (utilizing durable aluminium tags) and conducted large-scale verification for approximately 3,500 assets across the Yum! (KFC) South Africa head office and regional equity stores.
- **Database Management:** Managed asset data utilizing a specialized online portal, accurately identifying, editing, and updating asset records to ensure system integrity.
- **Troubleshooting & Resolution:** Investigated and resolved database discrepancies by tracking down missing items, correcting system errors, and manually adding undocumented assets into the portal.

SKILLS

I have experience in:
C#
HTML and CSS
JavaScript
Java
Python
AI

Software Engineering:
End-to-end development, encompassing requirement analysis, system design, coding, and testing.
